This major was designed for students who may be interested in the quantitative aspects of economic analysis and mathematics. Graduates will be well prepared to pursue a career in business or industry (such as forecasting, analysis, or research). However, many students completing this degree will choose to enter graduate school in economics, business, applied mathematics, or a related field. The curriculum for the joint major consists of nine economics courses, including the core theory courses and some quantitative field courses, seven mathematics courses, and two courses in statistics.

**Required courses for the Mathematics – Economics joint major**
The mathematics – economics joint major requires the completion of 58 credits distributed as follows.

**Mathematics courses**
- MATH 0220 Analytic Geometry and Calculus 1
- MATH 0230 Analytic Geometry and Calculus 2
- MATH 0240 Analytic Geometry and Calculus 3
- MATH 0413 Introduction to Theoretical Mathematics
- MATH 0420 Introduction to Theory 1-Variable Calculus
- MATH 1270 Ordinary Differential Equations 1

One of the following
- MATH 1180 Linear Algebra 1
- MATH 1185 Honors Linear Algebra

**Statistics courses**
- STAT 1151 Introduction to Probability
- STAT 1152 Introduction to Mathematical Statistics

**Economics courses**
- ECON 0100 Introduction to Microeconomic Theory
- ECON 0110 Introduction to Macroeconomic Theory
- ECON 1100 Intermediate Microeconomics
- ECON 1110 Intermediate Macroeconomics
- ECON 1150 Applied Econometrics 1
- ECON 1200 Introduction to Game Theory

One ECON non 0800-series elective course
Two ECON 1000-level courses having either ECON 1100 or ECON 1110 as a prerequisite

**Recommended courses:** Students are encouraged to take at least one field course in mathematics (MATH 1100, 1110, 1280, 1470, 1530, 1540, 1550, 1700) or statistics (STAT 1221, 1311, 1321, 1631, 1632, 1761).

**Grade requirements:** A grade of C or better is required in each course that is to count toward the major.

**Satisfactory/No Credit option:** No course that counts toward the major can be taken on an S/NC basis.

**Writing (W) requirement:** Students must complete at least one W-course in the major.

**Related area:** A related area is not required due to the interdisciplinary nature of the major.

**Honors major requirements:** Honors in the mathematics – economics joint major is granted if the student:
- Completes the these courses in lieu of those previously specified:
  - MATH 0235 Honors 1 Variable Calculus
  - MATH 0240 Analytic Geometry and Calculus 3 (UHC)
  - MATH 0450 Introduction to Analysis
  - MATH 1185 Honors Linear Algebra 1
  - MATH 1530 Advanced Calculus 1
  - STAT 1151 Introduction to Probability
  - STAT 1152 Introduction to Mathematical Statistics;
- Completes all required economics courses taking ECON 1180 Mathematical Economics and a pro-seminar (ECON 1700 – 1730) for the two ECON 1000-level electives; and
- Maintains a minimum GPA of 3.0 in the mathematics courses, a GPA of 3.5 in the economics courses, and an overall GPA of 3.5.

Checklist for the Mathematics – Economics joint major

Mathematics courses
- MATH 0220
- MATH 0230
- MATH 0240
- MATH 0413
- MATH 0420
- MATH 1270

One of the following
- MATH 1180
- MATH 1185

Statistics courses
- STAT 1151
- STAT 1152

Economics courses
- ECON 0100
- ECON 0110
- ECON 1100
- ECON 1110
- ECON 1150
- ECON 1200
- ECON (non 0800-series elective)
- ECON 1____
- ECON 1____

Note: The two ECON 1000-level electives require either ECON 1100 or ECON 1110 as a prerequisite.
