Computational Biology Major

www.biology.pitt.edu
Revised: 12/2023

Computational biology is a growing field of study in the life sciences. This major trains students in computer programming, laboratory techniques, and other skills they will need to succeed in graduate school and in the workforce. This program is administered by the Department of Biological Sciences in the Dietrich School and the Department of Computer Science in the School of Computing and Information.

Requirements for the Computational Biology major

Biological Science courses
BIOSC 0150 Foundations of Biology 1
BIOSC 0160 Foundations of Biology 2
BIOSC 0350 Genetics
BIOSC 1000 Biochemistry*
*Note: Students may alternately choose BIOSC 1810 (Macromolecular Structure and Function) and BIOSC 1820 (Metabolic Pathways) in lieu of BIOSC 1000. In this case, BIOSC 1820 becomes the elective course.

Computer Science courses
CS 0011 Introduction to Computing for Scientists%
CMPINF 0401 Intermediate Programming
CS 0441 Discrete Structures
CS 0445 Algorithms Data Structures 1
CS 1501 Algorithm Data Structures 2
CS 1656 Introduction to Data Science
*Note: or equivalent or placement assessment exemption

Computational Biology courses
BIOSC 1540 Computational Biology
BIOSC 1542 Computational Genomics OR BIOSC 1544 Simulation and Modeling
BIOSC 1630 Computational Biology Seminar
BIOSC 1640 Computational Biology Research Course OR CS 1640 Bioinformatics Software Design

Elective courses; 3 credits
Students must complete at least three credits in elective courses by choosing from the following list.

BIOSC 0351 Genetics Lab
BIOSC 0370 Ecology
BIOSC 1005 Introduction to Biochemistry Lab
BIOSC 1130 Evolution
BIOSC 1285 Genomics Lab
BIOSC 1320 Population Biology
BIOSC 1500 Cell Biology
BIOSC 1520 Developmental Biology
BIOSC 1545 Mathematics of Biology
BIOSC 1760 Immunology
BIOSC 1820 Metabolic Pathways and Regulation (with 1810) *
BIOSC 1850 Microbiology

BIOSC 1940 Molecular Biology
CHEM 0250 Analytical Chemistry
CHEM 0320 Organic Chemistry 2
CHEM 1460 Introduction to Modern Computational Science
CHEM 1830 Synthetic Biology
CS 1502 Formal Methods in Computer Science
CS 1520 Programming Languages for Web Applications
CS 1555 Database Management Systems
CS 1566 Introduction to Computer Graphics
CS 1675 Introduction to Machine Learning
MATH 0230 Analytical Geometry and Calculus 2
MATH 0280 Introduction to Matrices and Linear Algebra
NROSCI 1000 Introduction to Neuroscience
PHYS 0174 Basic Physics for Science and Engineering 1
STAT 1221 Applied Regression
*Note: This course must be taken in conjunction with BIOSC 1810; the pair of courses are in lieu of BIOSC 1000.

Co-requisite courses

Chemistry courses
CHEM 0110 General Chemistry 1
CHEM 0120 General Chemistry 2
CHEM 0310 Organic Chemistry 2

Mathematics and Statistics courses
MATH 0220 Analytic Geometry and Calculus 1
STAT 1000 Applied Statistical Methods

Frederick Honors College equivalent courses may be substituted for required or elective courses.

Writing (W) requirement
Students must complete at least one W-course in the major. BIOSC 1630 meets this requirement.

Grade requirements

BIOSC/CS courses: All courses offered by Biological Sciences and Computer Science plus the elective course must be completed with a letter grade of C or better.

Co-requisite courses: Students must earn a minimum GPA of 2.0 in their co-requisite courses. A passing grade of C- or lower in a co-requisite course can be accepted if balanced by a higher
grade in another co-requisite course so that the co-requisite GPA is 2.0 or higher.

Exceptions: CHEM 0110 and CHEM 0120 must be C or better to declare the major; PHYS 0110/0174 has to be C or better to enroll in PHYS 0111/0175; MATH 0220 has to be C or better to enroll in MATH 0230.

Satisfactory/No Credit option
One core course required for the major may be taken on an S/NC basis.

Restrictions
All BIOSC courses at the 0800-level are designed for non-majors. These courses to not count toward the major. Undergraduate teaching assistant (BIOSC 1690), independent study (BIOSC 1901), and undergraduate research credits (e.g., BIOSC 1903) do not count toward the major, though the department encourages students to pursue these opportunities.

Note about biochemistry options: BIOSC 1000 and 1810 are considered course repeats, and you cannot take both for credit.

Honors
A Dietrich School student may achieve honors in the Department of Biological Sciences by meeting academic and research requirements specified here: www.biology.pitt.edu/undergraduate/advising-and-support/honors

Advising – DSAS Students
The Biological Sciences Departmental Advisors are happy to meet with undeclared students, please make an appointment using Navigate Student. Students will officially be advised by the Bio Advising Team after declaring a major offered in the department. After declaring you will receive a welcome email with instructions by either late September or late January (depending on declaration date). Advising e-mail: BioAdv@Pitt.edu

The Bio Advising Team supports and enriches the academic experience of students by helping with curricular decisions, as well as providing information and guidance on extracurricular options, career paths, and post-graduate plans. Information about our advising team can be found: https://www.biology.pitt.edu/undergraduate/advising-and-support/advisors.

Advising – SCI Students
Students completing the Computational Biology major through the School of Computing and Information need to contact SCIAdvising@Pitt.edu.

Declaring the major: Before students officially declare the Computational Biology major, they must have completed BIOSC 0150, BIOSC 0160, CHEM 0110, CHEM 0120, and CS 0011 with a grade of C (not C-) or better and cannot be in violation of DSAS repeat rules. Transfer students who have finished these requirements prior to admission to the University of Pittsburgh are asked to complete one term of course work, including at least one BIOSC course that counts toward the major, before declaring.
**Checklist for the Computational Biology major**

### Biological Science courses
- ______ BIOSC 0150 or 0155 (UHC)
- ______ BIOSC 0160 or 0165 (UHC)
- ______ BIOSC 0350
- ______ BIOSC 1000 or (1810 and 1820)

### Computer Science courses
- ______ CS 0011 ______ CS 0445
- ______ CMPINF 0401 ______ CS 1501
- ______ CS 0441 ______ CS 1656

### Computational Biology courses
- ______ BIOSC 1540
- ______ BIOSC 1542 or BIOSC 1544
- ______ BIOSC 1640 or CS 1640

### Elective course (3 credits)
- ______

### Writing Course
- ______ BIOSC 1630

### Electives (3 credits)
- ______ BIOSC 0351 ______ CHEM 0320
- ______ BIOSC 0370 ______ CHEM 1460
- ______ BIOSC 1005 ______ CHEM 1830
- ______ BIOSC 1130 ______ CS 1502
- ______ BIOSC 1285 ______ CS 1520
- ______ BIOSC 1320 ______ CS 1555
- ______ BIOSC 1500 ______ CS 1566
- ______ BIOSC 1520 ______ CS 1675
- ______ BIOSC 1545 ______ MATH 0230
- ______ BIOSC 1760 ______ MATH 0280
- ______ BIOSC 1820 ______ NROSCI 1000
- ______ BIOSC 1850 ______ PHYS 0174
- ______ BIOSC 1940 ______ STAT 1221
- ______ CHEM 0250

### Co-requisite courses

**Chemistry**
- ______ CHEM 0110 or 0710
- ______ CHEM 0120 or 0720
- ______ CHEM 0310 or 0730

**Mathematics and Statistics courses**
- ______ MATH 0220
- ______ STAT 1000
